

# METCA Mavericks

By DUANE H. FEISEL

P.O. Box 1302 Los Altos, CA 94022

1974 - Issue 1

## = MAVERICK TOKEN COMMENTS =

Since we were able to use a condensed type for the listing of Illinois maverick tokens, it is possible to complete the listing started last time in 1973-Issue 6. The savings in space also allows inclusion this month of at least a few maverick token rubbings and descriptions.

Several collectors have written to comment how this listing of Illinois mavericks has allowed them to attribute a number of tokens. I think that similar listings for other states would be very useful, so if anyone is inclined to do some work, there is an opportunity to prepare an index of maverick tokens for the TAMS listing of Texas tokens and for the new catalogue of Colorado tokens. If you want to prepare such an index and submit it to me, it will be run in a future issue of "METCA Mavericks."

## = ATTRIBUTIONS =

### #815 SERAI CLUB, LOS ANGELES, CALIF.

Steve Albus includes a listing of this token in the second volume of his catalogue of California merchant tokens now in preparation.

### #820 HOFF & EICHNER, HUNTINGTON, ORE.

It is reported by Gene M. Kirschten that these men were partners in a saloon during the period from 1903-1905.

### #856 EAGLE SALOON, ASELIO & MORENZI, SUTTER CREEK, CAL.

Ron Lerch found a listing for this business in a pre-1920 telephone directory he recently added to his library.

### #861 WING HING CO., PORTLAND, ORE.

Several other denomination tokens from this user are in the collection of Clancy Riggs who provides the attribution.

### #886 CANNON'S, PORTLAND, ORE.

Clancy Riggs has located this one for us.

### #987 CRAIG BILLIARD HALL, LEWIS YOST, CRAIG, COLO.

Lee Nott pointed out that this token is listed in the new catalogue of Colorado trade tokens as C1455.

### #999 THIEL & DENNETT, TACOMA, WASH.

This business was a cigar store located at 11th and the SW corner of A according to Clancy Riggs who found the listing in a 1921 Polk's Directory.

A variety of sources are utilized in the attribution of maverick tokens. Probably the most useful are the old-time business directories and the various city directories. Some of the business directories are for entire states, several states, or the entire country. Still another useful source for attributions are old-time telephone directories. I have a number of such directories which are very useful, and recently I added city directories for Los Angeles (1908 and 1911), San Diego (1913), San Jose and Santa Clara County (1899), and telephone directories for the San Francisco Bay area (1911) and Southern California (1912). Anyone know where I can get a directory for Utah and/or Salt Lake City from about 1915? Or for San Benito and Monterey Counties in California for any year from about 1905 to 1918?

### 1974 - Issue 2

#### \* MAVERICK TOKEN COMMENTS \*

Because of the many favorable comments on the listing of Illinois maverick trade tokens run in the last two issues, I have convinced Steve Albem to let us have an advance look at the index of California maverick trade tokens which will be a part of the second volume of his catalogues of California merchant tokens. This second volume, covering the southern counties and San Francisco County, is just about ready to send to the printers. If the usual production schedule holds, we should look forward to this new catalogue in April or thereabouts. Just as soon as Steve knows more about price and delivery of this long awaited volume, that information will be given in "Trade Token Topics" at which time you can place an order if interested.

The index covers only those attributed California merchant tokens which do not have the name of the place as part of the legend on the token. If the town name occurs by itself or as part of the business name, even though no reference is made to California by the legend, then the token is not indexed here.

Following the key words of the legend on the token appears an abbreviation for the county in which the place is located, the code number for the place, and the specific catalogue number of the token in question. If you refer to a listing of the counties in California, the abbreviations can easily be translated to the county. To obtain the place name, you will either need the complete catalogue or the "California Trade Token Place Names" booklet. As an aid if you do not have immediate access to these references, I will provide the county and place codes for some of the larger places (30 or more tokens catalogued):

ALAMEDA	Ala 01	ANAHEIM	Ora 05	ANGELS CAMP	Civ 04
ANTIOCH	Con 03	BAKERSFIELD	Ker 06	BIRKLEY	Ala 10
CASTLE AFB	Mer 15	CHICO	But 20	COALINGA	Fre 22
COLTON	Sbd 20	COLUMA	Col 20	CORNING	Teh 21
DIXON	Sol 25	DOS PALOS	Mer 25	EUREKA	Hm 25
FORT BRAGG	Men 32	FRESNO	Fre 32	GILROY	Sc1 35
GRASS VALLEY	Nev 35	GRIDLEY	But 35	HANFORD	Kin 40
HAYWARD	Ala 40	HOLLISTER	Sbt 40	HOLLYWOOD	La 420
JACKSON	Ama 45	LODI	Sjq 53	LONG BEACH	La 495
LOS ANGELES	La 500	MADERA	Mad 55	MARYSVILLE	Yub 55
MERCED	Mer 55	MODESTO	Sta 55	MONTEREY	Mnt 55
NEEDLES	Sbd 60	NEVADA CITY	Nev 60	NEWMAN	Sta 60
OAKDALE	Sta 65	OAKLAND	Ala 65	OCEAN PARK	La 635
OROVILLE	But 65	PASADENA	La 670	PASO ROBLES	Sfo 66
PETALUMA	Son 66	PORTERVILLE	Tul 70	RED BLUFF	Teh 73
REDDING	Sha 72	REDWOOD CITY	Smt 72	RICHMOND	Con 73
ROSEVILLE	Pla 72	SACRAMENTO	Sac 75	SALINAS	Mnt 74
SAN BERNARDINO	Sbd 78	SAN DIEGO	Sdi 75	SAN FRANCISCO	Sfo 80
SAN JOSE	Sc1 77	SAN LUIS OBISPO	Slo 78	SAN MATEO	Smt 80
SANTA ANA	Ora 80	SANTA BARBARA	Sba 78	SANTA CRUZ	Scz 75
SANTA MARIA	Sba 82	SANTA MONICA	La 774	SANTA ROSA	Son 77
SONOMA	Son 83	SONORA	Tuo 78	STOCKTON	Sjq 80
SUSANVILLE	Las 80	TRUCKEE	Nev 90	TURLOCK	Sta 90
UKIAH	Men 91	VALLEJO	Sol 94	VENICE	La 910
VISALIA	Tul 93	WATSONVILLE	Scz 95	WOODLAND	Yol 96
YREKA	Sis 98				

Thus, if you have a token with ASCHEN & PROPPE as part of the legend, for example, you will note from the index that the catalogue attribution is Sfo 80 A68. Checking the listing above, you will note that Sfo 80 is San Francisco.

I hope this listing proves as useful to you as I think it will be. One other thing, if more than one attribution is given for a specific legend, that means that more than one token is known for that name, or the name has been used by more than one place of business. Please let me hear your comments. This time we will run a bonus issue, and then we should be able to complete this in two issues.

# METCA Mavericks

By DUANE H. FEISEL

P.O. Box 1302, Los Altos, CA 94022

1974 - Issue 3

## • MAVERICK TOKEN COMMENTS •

This month we complete the index of maverick California merchant tokens. Hopefully, someone will go through the effort of preparing other indices for future issues.

I note that TAME is now going to provide photographs of some of their listed maverick tokens. As I have pointed out in the past here, a rubbing and/or photograph of the maverick token often provides as much or even more information than the inscription on the token itself! The die work of the token can often be related to a specific token manufacturer and this in turn offers a clue to making an attribution. So TAME is taking a step in the right direction doing something similar to what has been done in "METCA Mavericks" for a long time!

In previous issues I have mentioned some of the sources for locating maverick tokens such as city directories, business directories, mercantile guides, and telephone directories. Another useful reference which can be employed to good advantage is the directory of street names of the larger cities in the US as prepared by the Post Office Department. I do not know if such directories are still published or not, but I have heard of persons having access to older editions of these publications. John Mutchson got to a 1908 issue of the "Post Office's Street Directory of the Principal Cities of the U.S." He has used this directory to narrow down or to pin point locations for maverick tokens which carry a street address as part of the inscription. Obviously, the street name has to be somewhat distinctive or else the number of possibilities is too great. For example, it seems that every second town or city has a Main Street. Of course, the final attribution should come from a directory listing for the specific merchant in one of the other types of references.

As an example of how the street directory has been used, John considered METCA maverick token #850 which carries the street names of Van Ness and Hackberry as part of the inscription. Checking the directory, John found Van Ness Street listed for five cities, Van Ness Avenue for six cities, and Hackberry Street for seven cities. However, only San Antonio, Texas, was included in the listings for both Van Ness and Hackberry. So, #850 is very likely from San Antonio, but we should have confirmation from a directory listing.

I did check the current Post Office zip code directory and can find no listing for Van Ness Street in San Antonio. Does anyone know if there was a change in names of the street, was it eliminated or what? By the way, I do find the zip code directory useful in token attributions, especially for parking tokens. Many parking tokens are for hospitals and often the city is not indicated on the token. For all the cities which have more than one zip code, the directory lists all the hospitals. There is no alphabetical index to all the hospital listings, so it can be a chore to wade through the large book, especially if I start in the front and do not find what I am looking for until I get to Wisconsin!

*Duane*

- ATTRIBUTIONS -

Feb '71 - HOUSES BAKERY, possible INDIANAPOLIS, INDIANA

Location by John Mutch through street name.

- #39 - THE HAIG, possible INDIANAPOLIS, INDIANA (Mutch)
- #472 - CONSTABLE & CLEARY, possible OSHKOSH, WISCONSIN (Mutch)
- #723 - MID CITY TAP ROOM, possible INDIANAPOLIS, INDIANA (Mutch)
- #752 - SCHLESINGER'S, possible ST. LOUIS or ST. JOSEPH, MISSOURI (Mutch)
- #739A - JACKSON & THOMPSON, possible OMAHA, NEBRASKA (Mutch)
- #768 - STEVE SCHWEITZ, possible ST. PAUL, MINNESOTA (Mutch)
- #793 - GILTEDGE SALOON, MANUEL NEVIS, WATSONVILLE, CALIFORNIA

This is a token I own and was able recently to attribute. I acquired a 1907-8 city directory which includes Watsonville, and there is a listing for Manuel Nevis, saloon & barbershop, 263 Main. I was doubly happy to attribute this piece--it is a nice token, and Watsonville tokens are of especial interest to me!

- #816 - CO-OPERATIVE DELIVERY SERVICE, LOS ANGELES, CALIFORNIA
- Mutch reported that this token could be from Los Angeles, and so I checked my several old directories which include the City of Angels. Although I could find no specific listing for the business, the street and address are right in the downtown area, and the die work on the token appears to be of the Los Angeles Rubber Stamp Company. Again, I am pleased to have this piece attributed as it is quite unusual.

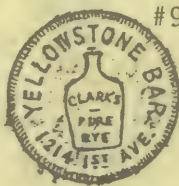

- #830 - J. FENDER, possible ST. JOSEPH, MISSOURI (Mutch)
  - #839 - DICK'S LIQUOR STORE & BAR, possible ST. LOUIS, MISSOURI (Mutch)
  - #850 - TRIPLE BAR, possible SAN ANTONIO, TEXAS (Mutch)
  - #862 - BOARD OF TRADE SALOON, G.P. JAMES, FORT WORTH, TEXAS
- Mrs. Jerry Adams, METCA #430, writes that she finds listed in Fort Worth City Directories the Board of Trade Saloon at 316 Main Street instead of 315 as on the token. This saloon was under the ownership of George Presley James from at least 1899 to 1905; other owners were noted before and after James.

- #884 - ARABIAN CAFE, DENVER, COLORADO
- Mutch points out that this token is listed by Wright, Nott & Carey as DE 105.

- #892 - GAMBINO TAVERN, possible ST. LOUIS, MISSOURI (Mutch)

- #908 - KELLOGG & O'GORMANN, VIRGINIA CITY, MONTANA
- Token researcher Blaine M. Simons reports that he finds in a 1914-15 gazetteer a listing for "Jno O'Gorman, prop. of The Madison," and The Madison is listed as a hotel. While this attribution does not include Kellogg, it appears the token has found a home! The style is very much Montana instead of Nevada as well.

- #913 - J. CANNON, NORTH POWDER, OREGON
- Several collectors have written to inform me that the only North Powder location appears to be Oregon. So far no one has come up with a specific listing for Mr. Cannon.

Brass, 28 mm(sc-8), METCA #283  
 A. HANSON / THE / MINT  
 Good For / 5¢ / Pool / In Trade

Brass, 24 mm, METCA #283  
 YELLOWSTONE BAR / CLARKS / PURE /  
 RYE / 1214 1ST AVE.  
 Good For / 2 1/2¢ / In Trade

## • MAVERICK TOKEN INDICES •

This issue we are able to complete the index of exoteric tokens from California as prepared by Steve Allen for inclusion in his second volume of "Catalogue of California Wemyss Tokens." Just as soon as price and delivery information are available, Steve will provide notice in "Trade Token Topics."

Please refer to the 1974 - Issue 2 of "METCA Mavericks" for the first portion of this index and for information on using the index. I will be interested to learn how many mavericks you were able to attribute from this index!

So far, we are not aware of any one preparing an index of the mavericks taken listed for Texas in the TAMM publication and for Colorado as listed in "Colorado Merchants Index" by James E. Wright, N. Lee Hart and Donald Coker. Such indices would be of great help to merchant token collectors in general. Isn't there someone willing to tackle this job? As indicated previously, if someone will prepare a merchant token index for a given state, there is a good chance we can use it for "MICA Mavericks."

One other useful type of index would be a numerical listing of the Elks, Eagles and Moose lodges. Does anyone have access to this sort of information? I know that the Elks organization does have a numerical listing of their lodges, but I have not been able to see a copy.

## 1974 - Issue 4

### - MAVERICK TOKEN COMMENTS -

Just about when you had given up hope of ever seeing another of these maverick token special sections, here I am back again. My intentions have been to make this section a regular feature of your METCA TRADE FINDER TOPICS, but it has not always been possible for me to find time to do the job the way I think it should be done. I will do my best to keep things on a more regular basis, but there are often demands on my time which will prevent me from making a report.

At the last Token & Medal Collectors Jamdown in San Jose, my friend Bob Conroy brought along a 1914 copy of ~~AMERICAN'S GUIDE TO COMMERICAL MATTERS~~. I don't know how many of you are familiar with this type of reference, but it is invaluable in making maverick token attributions and researching tokens in general. If you are not familiar with this directory, see the next page for a sample from the California pages.

The book has a large page size of about 9" X 14", it is quite thick and heavy, and the binding has deteriorated. In its original form it is difficult to use extensively because of the large size. At the suggestion of another collector, I had some pages reproduced on a special Xerox copier where the page size can be reduced. When reduced to regular page size of 8-1/2" X 11", the copy is very legible, and the page size is much more convenient for everyday use. I did find out that the reduced copy did not itself provide a good copy, so I hope that the sample comes out well enough for you to see what the data are like.

The 1914 date hits right in the time period when trade tokens were used most extensively, so this is a very useful reference to the serious collector. Because it is of such value, I have decided to let other collectors use the information by making available copies of the pages. These copies will be on the 8-1/2" X 11" page size, and the type size will be small, but very legible. The book includes a number of states (as listed below), and I will take orders for individual states. The cost will be 10¢ per page if there are two or more requests for the same state, or 12¢ a page if there is only a single request. I have to pay a special charge for having these pages done, and the book will be subjected to copying only one time. So, if you are interested, now is the time to act. I will accept orders up until December 1, 1974, and delivery will be made by mail right after the Christmas holiday season.

In the list following, the states (and provinces of Canada) available are given along with the number of pages involved for each. If the state name is preceded by an asterisk, that means someone has already ordered pages for that state, so if another order comes in the per page price will be only 10¢. What I will do is to make the state listing part of an order blank for convenience of both of us. Check the states you want, and if you want the pages bound into a permanent Velo-Bind plastic cover, note that with a circled B; the Velo-Bind process will cost you an extra \$2.00 for each binding. It provides a very convenient way to keep pages together, and I use it for much of my reference materials. Finally, you will have to pay postage costs for mailing to you, and sales tax if applicable. You will be billed before shipment, so please send a SASE with your order,

*Duane*

## 1973 - ISSUE 6

Please note my new address as given above. I still have my old post office box and will keep it for some time, but I want to phase it out gradually.

Several months ago a friend asked me to start working for him on a temporary basis to help out on a rush program. He asked one day and I started the next, so it left no time to wind down some of the projects and other token matters with which I am involved. As a consequence, some things had to be put aside as I found my time for tokens reduced by about 50 hours a week! Now the job is completed and I am back "on vacation" again, so I am trying to tackle the many things that had accumulated. Needless to say, my correspondence is a shambles, but I will do my best to get that into shape very soon.

One of my projects has involved the new catalogue of Illinois trade tokens by Ore H. Vacketta. I have done some editing and then prepared the camera-ready pages for the printers. The page preparation has just been completed, and the book will be in the hands of the printers by the time you receive this. The book should be ready in a few months unless the paper shortage interferes. As soon as a price can be set, the new catalogue will be advertised in the METCA Trade Token Topics.

A feature of the Illinois catalogue is an extensive index of all the maverick tokens. Chris Christiansen prepared the card file of the maverick tokens which meant a lot of time and careful attention. Since just about every collector has at least a few maverick tokens from Illinois, it seems like this index should be very useful to all METCA members. Thus, beginning with this issue we will be running the index in serial form. Ray has agreed to double the size of this maverick section, so the complete index will take three issues. If there is enough interest in this sort of thing, perhaps we can run the index of California maverick tokens as well in the future.

I have on hand a number of maverick token rubbings and descriptions, plus a few attributions from recent listings. By the time of the next issue I should have sorted through my mail and then I will provide the recent attributions.

If you have any comments on the index of Illinois mavericks, I will be interested in them.

BEST WISHES FOR THE HOLIDAY SEASON AND FOR THE  
NEW YEAR AHEAD!

# - IDENTIFICATION KEY -

This listing enables one to attribute Illinois trade tokens which do not carry in their inscription a full attribution to Illinois. To provide more usefulness, some tokens may be listed several times--under the business name, under a possible variation of the business name, and under the proprietor(s)' name(s).

Tokens from Chicago which have "Chicago" in the inscription but not "Illinois," are not included in this listing. However, other tokens from other places which carry the name of the place in the inscription, but not "Illinois" (or some variation of the name of the state) are listed.

Identifications which involve a number as the first element of the identifying phrase are listed at the end of the alphabetical listing.

" ORDER FORM "

Name ..... METCA @ .....

Mailing Address .....

City ..... State ..... Zip .....

I wish to order reduced page size copies of the listings for the states marked from the 1914 edition of *BRADSTREET'S BOOK OF COMMERCIAL RATINGS*. I understand that the cost will be 10¢ per page unless my order is the only one for a given state, and then the cost will be 12¢ per page. If I wish the pages bound in a Velo-Bind plastic cover, I have indicated that by using a circled B to mark the state; the added cost per binding will be \$2.00.

Orders will be accepted up to December 1, 1974, and no further copies are planned. I understand that I will be billed in advance for the work, and will make prompt payment when notified. To facilitate notification of costs, I am enclosing a stamped, self-addressed envelope.
